Little Auzzie Makers

Small DIY Kit — Safety & Instructions

Ages 4+ with adult supervision

Safety notes

- 1 plaster figure with small details that can snap — keep away from under 4s.
- Plaster is brittle: place on a flat surface and paint gently.
- Non-toxic paints. Cover the table and wash hands when finished.

How to paint your kit

1. Cover your table and pop on the Art Apron or old clothes.
2. Take the plaster figures out gently — they are solid but can chip.
3. Open the paint pots and share out the colours. Add a splash of water to thin them.
4. Paint one side, let it dry, then turn the figure over and finish the rest.
5. Leave to dry for 30 minutes before displaying or gifting.
6. Wash brushes and little hands with soap and water.

General warnings

Suitable for ages 4+ with adult supervision. Contains small parts — choking hazard for children under 4. Paints are non-toxic but not for eating. Not a food container. Keep dry; plaster softens if soaked. Questions? Email Littleauzzie_makers@outlook.com
